PROJECT IDEAS

The projects below have been suggested by members via 2023-24 membership form and during the AGM in November 2024. These projects have not been initiated. If you would like to lead any of these projects, please reach out so we can discuss.

Project / Activities
Social Walks in the Black Range (e.g. identify interesting tracks, liaise with relevant landholders for access)
Erosion management - Knowledge exchange
Environmental communication (with broader community)
Update Black Range Management Guide
Scientific research on grazing pressure and advocacy for strategic landscape monitoring in the Black Range
Emergency planning
Monitoring grant opportunities / resource mobilization (to complement current funded activities or to fund new activities)
Recovery/recycling of old exclosures materials
